THE NEW ADMINISTRATION

We city administration, Mayor John A. Scafide and lessoners J. Cyril Glover and Sylvan J. Ladner, Man are steen basely Morning by Hancock Galactery Ches & C. Siteitell

er will serve the City of Bay St. Louis for the next wood, Housen C. J. and whather or not their administration is Suc-wood, Housen C. J. and Will depend a lot on how well they cooperate with dence shows for the other and how much cooperation they receive from been analysed and

Many of us may have had our political differences, but the band presented a concert to e are of the opinion that the welfare of our community Grove at the University at 8:00 p. in Sunday night, and the lobby abov we tens, should accept the will of the majority and co-posanted by the majorettes. The conizens, should accept the will of the majority and co-com and above were snjoyed by so ch to live and to raise our families.

We do not know yet what plans the administration may include perform We do not know yet what plans the administration may party B. Dennis, director for the future, but whatever they are, if we feel that band, expressed appreciation these plans when carried out to completion will benefit line cooperation that he and other er citizens, then we will urge our readers to give their the fine boys and wide

holehearted support

It is a known fact that no one person or group of pernous can hope to succeed without complete cooperation. Therefore we urge everyone, regardless of political differences to think of their community's welfare before acting to the Convention by the Lions of Mis harshly against any plans for improvement.

THE LEGION AND OUR COMMUNITY

AST WEEK the local American Legion placed about town Last week the local Allier WELCOME TO BAY ST.

a number of signs reading "WELCOME TO BAY ST.

LOCAS." The signs also called attention to the free public It's A Prosperous facilities of the Legion.

Recently cooperating with City and County Health officials, the Legion allowed signs to be posted along the beach inviting the public to use the rest rooms at the Legion Club in an effort to control the commission of nuisances along our beaches by a few uncouth individuals.

And these are only a few of the many efforts being made by this organization toward the betterment of Bay St. Louis: They maintain a public pier, at considerable expense for the use of our citizens and visitors to our community. They are keeping their Legion Club open every day at an actual cash loss, so that the use of the club and rest rooms will be available to the public. They have prohibited liquor at the club, because of the possible bad influence on our youth who fish and crab on the Legion

If all of us in Bay St. Louis, following the example of the American Legion, would do all within our power to make our town more attractive and appealing to ourselves as well as visitors, we soon would have the sort of community to which we could point with pride; the sort of community that would do much to counteract the disagreeable publicity we now receive; and a community that would gain financially in the process.

to know...

The only way for a producer looking for gas or oil to know "what's down there" - for sure is to drill. So he'll spend \$100,000 ... and often many times that amount ___ to drill a single exploratory well, Nationally, the adds against getting a producet in a wildcat area are eight to one. And in Mississippi they are 24 to one -24 dry holes for every producer discovered in exploratory areas.

It costs money....big money....to locate new supplies of natural gas so this premium fuel will continue to be available to you and the great industries of the Gulf South.

The natural gas industry can and will continue to bring in more wells and discover more fields, sa long as natural gas sells at prices sufficient to provide the incentive to find and produce, transport and distribute this matchiese fuel:

Acreally ... and we think you'll agree .. and that it the biggest barguin in your home

MUST BE PREPARED FOR POLIO OUTBREAK SAYS MRS. THEO TUDURY

Despite encouraging progress in police research, all communities must be on the alert and fully prepared to cope with pollo outbreaks this summer, Mrs. Theo Tudury, chairman of the Hancock County Chapter of the National Foundation for Infantile Paralysis, said here

Mrs. Tudury has just returned from s workshop meeting of volunteers of National Foundation county chapters in Memphis, Tenn, where problems and progress in the polio fight were reviewed with Basil O'Connor, president of the Merch of Dimes organization, and other polio officials. Volunteer polio workers were present from Alabama,

ngle Linius of Affice, Ro

Saturday, July 11

She pointed out that national incidence of the disease this year is already running about 25 per cent shead of the same period in 1952—which was the worst year in recorded polic cases that will be added to the patient history, with 57,628 cases reported across the country.

"Fortunately," she added, "we are lists of our own chapter," she concluded. But the National Foundation will not-

all so much more aware of polio symptoms these days that we can count on early diagnosis and prompt treatment. And many-cases will be 'suspects' or nonparalytic ones which often can be diagnosed and treated just as well in their own homes as in hospitals."

The treatment trend today emphasizes certain advantages of home care for such patients, especially those livng near treatment centers, Mrs. Tudury

"With the aid of a consultant, if ecessary, the family physician often at home, sparing them the fatigue, iervous tension and excitement brought on by hospitalization, she added. Home care avoids the psychological strange environment. 'And, most imporant, it eases the strain on hospitals argently needed to care for the really in the city with her husband.

serious cases." National Foundation chapters across the country, already carrying a heavy burden of continuing care for an timated 60,000 patients stricken with polio in previous years, must now make ready for the unknown number of new
